

Rilpivirine (TMC278) Addendum for Non-Profit Institutions only

Addendum to the HIV Reagent Program (HRP) registration agreement

Applicable to: Rilpivirine (TMC278)

Catalog Number: ARP-12147

Non-profit Recipient agrees that the Rilpivirine (TMC278), donated to the HIV Reagent Program, will only be used for in vitro studies of HIV replication and/or animal studies of HIV replication. Also, note the following release category description for Rilpivirine (TMC278).

Category E: Non-profit Recipient must not use or incorporate the reagent for commercial purposes. Non-profit Recipient will seriously consider Tibotec's request for an exclusive, nonexclusive or partially exclusive royalty bearing license to make, use and /or sell products embodying inventions as claimed in any filed patent application, subject to the terms of 35 U.S.C. 207, 208, 209 and the implementing regulations.

Non-profit Recipient must provide 2-3 sentences describing the research plan for this reagent:
