

Peripheral Blood Mononuclear Cells, Mpx Virus-Exposed (Non-Human Primate C17073, 10/05/06)

Catalog No. NR-4166

This reagent is the property of the U.S. Government.

Lot No. 10/05/06

For research use only. Not for use in humans.

Contributor:

National Institutes of Allergy and Infectious Diseases (NIAID),
National Institutes of Health (NIH)

Manufacturer:

Battelle Memorial Institute, N01-AI-30061

Product Description:

Reagent: Peripheral blood mononuclear cells (PBMCs) from a non-human primate (NHP) that received a low dose of live, replicating Mpx virus, Zaire 79 (BEI Resources NR-2324)
NHP Identification: C17073
Preparation Date: 10/05/06

Material Provided:

Each vial contains approximately 1.0 mL of Mpx virus-exposed NHP PBMCs at a concentration of 1.0×10^7 cells per mL.

Packaging/Storage:

NR-4166 was packaged in screw-capped plastic cryovials. The product is provided frozen and should be stored at cryogenic temperature (-100°C or colder), preferably in the vapor phase of a liquid nitrogen freezer, immediately upon arrival. Storage at -70°C will result in loss of viability.

Citation:

Acknowledgment for publications should read "The following reagent was obtained through BEI Resources, NIAID, NIH: Peripheral Blood Mononuclear Cells, Mpx Virus-Exposed (Non-Human Primate C17073, 10/05/06), NR-4166."

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the following publication: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and National Institutes of Health. Biosafety in Microbiological and Biomedical Laboratories. 6th ed. Washington, DC: U.S. Government Printing Office, 2020; see www.cdc.gov/biosafety/publications/bmbl5/index.htm.

ATCC® recommends that appropriate safety procedures are used when handling material derived from primates.^{1,2} Vaccination should be considered for personnel working with this reagent.

Disclaimers:

You are authorized to use this product for research use only. It is not intended for human use.

Use of this product is subject to the terms and conditions of the BEI Resources Material Transfer Agreement (MTA). The MTA is available on our Web site at www.beiresources.org.

While BEI Resources uses reasonable efforts to include accurate and up-to-date information on this product sheet, neither ATCC® nor the U.S. Government makes any warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. Neither ATCC® nor the U.S. Government warrants that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, use and disposal. ATCC® and the U.S. Government are not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, the U.S. Government, ATCC®, their suppliers and contributors to BEI Resources are not liable for damages arising from the misidentification or misrepresentation of products.

Use Restrictions:

This material is distributed for internal research, non-commercial purposes only. This material, its product or its derivatives may not be distributed to third parties. Except as performed under a U.S. Government contract, individuals contemplating commercial use of the material, its products or its derivatives must contact the contributor to determine if a license is required. U.S. Government contractors may need a license before first commercial sale.
